INSTALLATION INSTRUCTIONS

SpeedFlex[®] Track Top Gasket (Part No. TTG350F, TTG600F)

Pull end of TTG from center of roll. Peel optional adhesive from end.

Place TTG at one end of track and center along its entire length.

Flip track and cut TTG along other end of track.

Secure track to floor/ceiling as described in reference wall design.

Verify that downward projecting flaps are sandwiched between gypsum board and steel ceiling track. Seams in adjoining lengths of gasket may be butted or overlapped.

The TTG350F can be cut along the center perforation to be placed on wider tracks.
