# High performance roofing torches for success on every job.

The roofing business is constantly changing. The economy. The competition. Even the weather can affect your bottom line. To grow your business and make a profit at the same time is no longer just about being a good roofer. You need to be a good businessman, too.

One of the best decisions you can make is to power your business with the most innovative roofing tools available in today's market. For roofers around the globe, that means using torches from Express.

Express torches are uniquely innovative in both construction and performance. Ultra-light and ultra-strong, all of our torches are dependable and durable. We offer different kits, each for different applications and conditions. And our product line includes one of the lightest to one of the most powerful torches on the market – plus everything in between.

As a result, we've sold over 5 million torches and have just as many satisfied customers worldwide. From detail work to large-scale roofing projects, we have the tools you need for success.

## **Express torches have the power you need to stay ahead of the competition.**

Here are just a few reasons why you should put Express on the job:

- Varied ranges of torches with outputs up to 500,000 BTUs
- Titanium and steel construction for lightweight yet durable tools
- Superior torch design with flame length up to 40"
- Less repetitive strain and stress thanks to lightweight materials
- Properly designed handles with precise control of flame length and flow rate
- Patented swivel hose attachment to prevent tangling and tripping
- Three different rod lengths for comfort and a variety of conditions
- Convenient 'grab-n-go' kits including UL listed hose and regulator
- Replacement parts guarantee – Express torches are not one-piece construction
- Increased profits thanks to unmatched Express technology
