

Husqvarna K 3000 Wet

Wet and dry cutting in one machine! Electric all-around wet cutter that minimizes the amount of water and slurry. With the optional Vac unit you can easily transform it into a dry cutter that generates minimal dust. Unlike other electric cutters, the blade rotates forward, cutting into the material efficiently with minimum effort from the user.

"PULLING" ROTATION

The blade on all of our electric cutters rotates forward, cutting into the material efficiently, minimizing the risk of sticking and kickbacks.

ERGONOMICALLY DESIGNED REAR HANDLE

The convenient design of the rear handle makes operation easier.

OVERLOAD PROTECTION

Our Elgard™ system protects against overload by varying the rotation speed.

ERGONOMIC AND EASY CUTTING

Efficient cutting with less strain on your body, thanks to its low weight, ergonomic handle and low vibrations.

Features Husqvarna K 3000 Wet

- A powerful electric cutter for both indoor and outdoor use.
- Fits multiple blade bushings
- Our anti-vibration system reduces vibrations in the cutter handles, so they are more comfortable to hold and can be used for longer periods. To provide the user a comfortable operating position and to reduce strain, the distance between the handles is large. The handles and the short engine body mean the user always stands close to the machine, for easier handling and control.
- Generously dimensioned miter gear provides high durability, minimal power loss and low noise levels.
- The integrated regulator controls the water volume, ensuring a constant flow to the blade. It also ensures the amount of water is sufficient to bind the dust without creating an excess of water.
- The advanced electronic overload protection varies the rotation speed to warn of approaching overload.
- Provides starting with normal, slow acting fuses.
- Quick acting locks for the spindle and a large outlet in the blade guard simplifies blade replacement.

TECHNICAL SPECIFICATION	
Engine	Electric 120V
Voltage	230 / 120 / 110V
Rated current, A	12/15/20 A
Power	1800 W
Rated input	2700/1800/2200 W
Blade diameter	14 inch
Max cutting depth	5 inch
Weight (excl. cutting equipment)	18.7 lbs
Vibrations front handle	3.5 m/s ²
Vibrations rear handle	3.5 m/s ²
Sound power level, guaranteed (LWA)	105 dB(A)
Sound pressure level at operators ear	95 dB(A)
