

Drywall Master

ABOUT

Drywall Master Tools exhibit the best in quality and overall affordability. Our tools are built by industry experts, using advanced engineering techniques. All of our products are thoroughly tested before being released. Planned obsolescence is NOT our Business Plan! We want to SELL tools, so we build them to last. Plus, Drywall Master Tools products have parts that are VIRTUALLY 100% INTERCHANGEABLE with major manufacturers in the industry.

Drywall Master Tools is committed to providing contractors with the ability to own taping tools for less than it costs to rent them. Our lease-to-own program offers our customers the ability to own our products for significantly less than the monthly cost of renting other manufacturer's taping tools. Our tools are also more affordable than industry leaders if you purchase them outright.

Drywall Master Tools has a well-established sales and dealership network in the US, Canada and other countries — so you have easy-access to our tools

HISTORY

Behind Drywall Master Tools Drywall Master Tools was started by Larry D'Souza, a seasoned veteran of the automatic taping tool industry.

Prior to founding Drywall Master Tools, Larry and his partners helped shape the industry in 1980 by starting one of the first companies to sell a complete set of automatic taping tools... By 1987, they were selling more automatic drywall taping tools than all other manufacturers... with dealers in the US, Canada, United Kingdom, France, South Africa, Australia and New Zealand.

Twenty-three years ago, Larry and his colleagues transformed the industry from almost a pure rental market, to a market where contractors could own tools at a lower total cost of ownership. In this tradition, Drywall Master Tools is continuing the commitment to provide contractors with the ability to own the best quality taping tools.

ENGINEERED. STRONG. DURABLE.

MASTER AUTO TAPER

Drywall Master Tools, Inc. offers the best Automatic Taper available on the market today. Our light-weight yet durable design was built with Aircraft Quality alloys and true stainless steel. Our Engineers have plenty of industry experience and understand what contractors need. We understand that people want a Taper that has the look and feel of products they have used in the past but is built with parts that won't wear away easily. Our Automatic Taper is interchangeable with major manufacturers and is built with the best quality parts. Our parts can even be used to repair other brands! We realize that downtime is money so we decided to build a Taper that keeps you from renting again. We back that statement with a 5 Year Warranty. For more information, visit www.drywallmastertools.com

NEW FEATURES

Patent pending screwless removable cover plate. Simplify cleaning and routine maintenance.

Contoured rubber trigger cover to prevent blistered fingers and polycarbonate end ring for a comfortable grip on long jobs.

A new, patent pending attached tape spool keeper with a tape spool mechanism to prevent over spin during use.

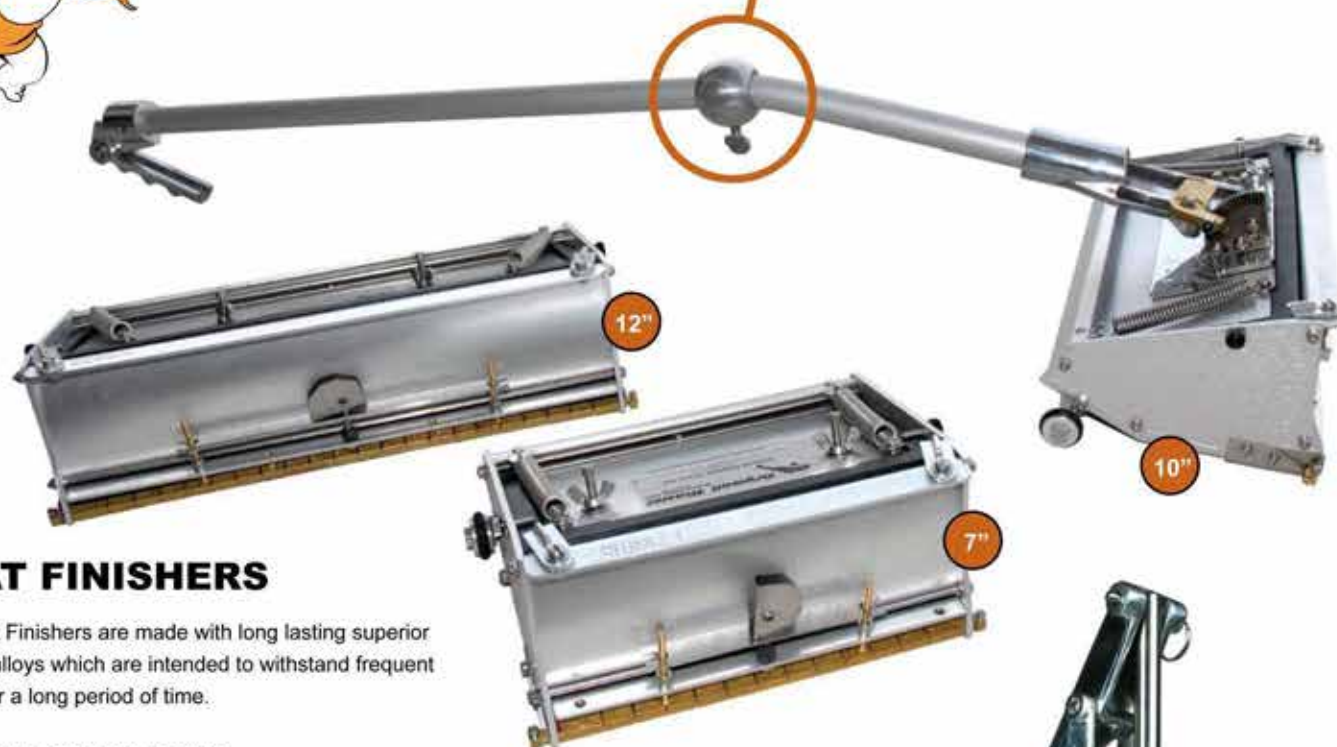

ERGONOMIC

HELL-BENT BOX HANDLE

The hottest fixed length flatbox handle on the market. Ergonomic design adds leverage making quick work of headers and butt joints.

HELL-BENT Box Handles are available in 34", 42", 54", 72" sizes.

FLAT FINISHERS

Our Flat Finishers are made with long lasting superior quality alloys which are intended to withstand frequent use over a long period of time.

THESE ARE STRONG BOXES!

Our Flat Finishers are also interchangeable with the industry leaders.

Flat Boxes are available in 5.5", 7", 10" and 12" sizes.

Straight Flat Box Handles are available in 34", 42", 48", 54", 60", 66" and 72" sizes.
New in DMT's line-up of flat box handles, the 12" Super-Finish™, for confined spaces.

QUICK-CLEAN LOADING PUMP

The Drywall Master Quick-Clean Pump will load most any taper and box on the market. If you find a tool that it won't load, let us know. Filling and cleaning are both done quickly and easily.

New fiberglass handles are now included on all 2011 Loading Pumps.

Gooseneck and Box Filler sold separately.

If you are a contractor that is renting a pump, stop!

The average annual rental cost on a pump is \$412.45 per year (\$1.13 per day x 365). Renting a Gooseneck in \$266.45 per year, another waste of money. By the way, when was the last time you heard of a Gooseneck needing repair? You could always give the money you save to your favorite charity.

5 YEAR
LIMITED WARRANTY
ON ALL SOLD TOOLS.

BONE HEAD ANGLE HEADS

Using the latest in computer design technology, our **Bone Head Angle Heads** are the most precisely machined on the market. Both the main body and the frames are 100% CNC Machined. No welding!

As a result, we can guarantee the most precise tolerances on every Angle Head. The Frames and Nose Clips are made from a superior grade of stainless steel to resist corrosion and bending. We have also added easy to use clip adjusters to adjust tension from 1 or both springs. Nose Clips are interchangeable with other manufacturers. Once you go Bone Head, you never go back.

Available in 2.5", 3" and 3.5" sizes. **Handles** are available in both fiberglass and aluminum.

GUARANTEED TRUE.

CORNER FINISHER HANDLES

Billet aluminum couplings for strength and fiberglass handles for comfort and weight.

CORNER ROLLER

Here is another tool that just doesn't make sense to rent. At an average annual rental rate of \$295.65 per year (\$0.81/day X 365 days) you should own this tool.

Our Corner Roller uses a Polished Die Cast Aluminum with Rollers made from one of the highest grades of stainless steel.

CORNER APPLICATORS

Both our 7" and 8" Corner Applicators use a welded base where other brands often risk leaking with stitches. The base is hard coat anodized and the Cones use one of the highest grades of stainless steel available.

Watch new videos of our corner applicators in use online at drywallmastertools.com

NAIL SPOTTERS

Fixed fiberglass handles or extendable handles available.

We are proud to say that our tools are Made in the U.S.A. Chicago, in fact.

Not all automatic taping tool manufacturers can say that these day. In fact, some of the highest priced tools in the market are now being made overseas.

Drywall Master
Serious Taping Tools.
